

3 Easy Ways to Inspire Your Creative Flow...

Courtesy of Kim Berry (<https://kimsdiytribe.com>)

1. Have a hub: Gather your favorite supplies in one area of your home and display them in an attractive, pleasing way that allows you to see them often. This allows your supplies to inspire you visually.

2. Creativity needs to be fed: Go to a craft show or store and make notes or take pictures (if allowed) of ideas that speak to you. Buy a new supply or treasure while you are there.

3. Make an "art appointment" with yourself: Set aside an hour a week to give yourself time to try a new technique or idea you've been putting off. Give yourself permission to be "rusty" and make mistakes. Mistakes are creative opportunities in disguise.
